

Baby...I'm a Psycho (Music and Lyrics by Paul Needza Friend) © 2006

Capo 2nd fret

You been neurotic since the day that we first met
B(D) E(G) F#(A) B(D)
You say you love me, but I know that you're obsessed
And now I love you in the most disgusting way
I've become complacent with all of your nagging

Cause baby I'm a psycho like you
E(G) F#(A)
And I got nothing better to do
Than sit around and take your abuse

But I'll miss you when your gone x3
B(D) F#(A) E(G)

Whenever I go out you keep your tabs on me
B(D) E(G) F#(A) B(D)
You call up all my friends to see just where I been
You think Im having sex with everyone in town
Sometimes I wish I were so I won't let you down

Cause baby I'm a psycho like you
E(G) F#(A)
And I got nothing better to do
Than sit around and take your abuse

But I'll miss you when your gone x3
B(D) F#(A) E(G)

I don't know why I like to come home to someone that I can't stand
G#m(Bm) E(G) B(D) F#(A)
I don't know how you can love someone that you could never trust
I just hope some day we can change but I know we never will

I been neurotic since the day that we first met
B(D) E(G) F#(A) B(D)
I never wanna see you turn out like my ex
She was obsessive and controlling just like you
It hurts me to admit my nightmare has come true

Cause baby I'm a psycho like you
E(G) F#(A)
And I got nothing better to do
Than sit around and take your abuse

But I'll miss you when your gone x3
B(D) F#(A) E(G)
